THE

GRAHAM

1965

Graham students dedicate themselves  
anew to America's ideals of freedom.

Published by  
GRAHAM HIGH SCHOOL  
Bluefield, Virginia

Dear Students,

I give you your '65 annual, picturing many phases of life at Graham. Students shouted when we won and wept when we lost. Yes, it has been a good year even if we didn't always win.

But we are not as unaware as teenagers are often pictured. We know we are living in a strange, wonderful, but dangerous world. We are awed when we think of the task ahead—to make a good life for ourselves and to keep America free.

Let's see what our school has done to prepare us to hold high the torch of freedom.

Your editors,  
Susan and Shelby

It's a tall task. The fire the teacher can do  
had to carry the water. She didn't make the walk  
had to get for breakfast. He  
had to wash the dog. And  
she had to clean the house.

Opportunities Like  
Edison had are

## WAITING FOR YOU

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards. All it takes is a willingness to work harder and contribute more.
